As a PhD student and member of the LOOP group, I am focused on Human-Computer Interaction. With a keen interest in education and social interactions, my research aims to understand how groups of people, such as students, can manage teamwork in long-term collaborations. My research therefore aims to understand and support group information management and workspace awareness in a variety of groupware ecologies.

EDUCATION

OCTOBER 2024 – OCTOBER 2027
PhD in Computer Science
ED MADIS 631 - Lille University
Title: Automatic information management for collaborative spaces
Supervisors: Sylvain MALACRIA, Bruno FRUCHARD, Carla F. GRIGGIO

SEPTEMBER 2023 – MARCH 2024
MSC Agrégation Preparation
CS Department - ENS Rennes
Competitive examination for civil service in the French public education system

SEPTEMBER 2021 – SEPTEMBER 2023
MSC Virtual and Augmented Reality
CS Department - Lille University
Thesis: Study of emergent phenomenon from MAS: Flocking Boids
Graduated with distinctions

SEPTEMBER 2018 – SEPTEMBER 2021
BSC CS
CS Department - Lille University
Thesis: Simulation of COVID19 through MAS
Graduated with distinctions

EXPERIENCES

OCTOBER 2024 – OCTOBER 2027
PhD Student – teaching assistant
INRIA Lille - CRIStAL Université de Lille – FST Université de Lille
Teachings: L2 Databases, L3 HCI

JANUARY 2026 – MAY 2026
PhD Student – visiting PhD
Departement of Computer Science – CPH Section – Aalborg University
Teachings: Discussant in MobileHCI course, Software Master's program

JANUARY 2023 – SEPTEMBER 2023

Research Intern

CRIStAL - Université de Lille

Supervisors: Florent BERTHAUT, Thomas PIETRZAK

Topics: 3D interaction, surface haptics, VR immersion on roughness feedback
